

PHILOSOPHY

TENETS THAT UNDERLIE OUR APPROACH TO PATIENT CARE:

- * Health is a journey, not a destination.
- * Health and disease are largely determined by habitual patterns of daily living.
- * Health and disease are processes that involve the whole person.
- * To a significant extent, one is the sole guarantor of one's own health.
- * Empowerment of the individual is at the inception of the healing process.

OUR APPROACH EMPHASIZES:

- ◆ **Self-empowerment**
- ◆ **Wholeness**
- ◆ **Behavioral change**
- ◆ **Natural treatments.**

Presently the object of intensive scrutiny, these modalities are emerging from scientific laboratories on several continents as powerful agents in promoting health and preventing and treating disease.

NOT-FOR-PROFIT PHARMACY

We cannot depend on over-the-counter nutraceuticals (vitamins, minerals, and other nutritional supplements) for the treatment of our patients because of two reasons:

- (1) The purity of the raw materials from which the products are made often is unknown;
- (2) Large discrepancies between label and bottle contents often exist in commercial preparations.

The **SOTERION PHARMACY** is stocked with selected products for which proof of quality and content, supplied by independent laboratories, exists. It was created for the patients' convenience to assure that what we prescribe corresponds accurately to their needs.

The **SOTERION PHARMACY** functions as a not-for-profit enterprise—any profit accruing from its operation is applied to fund:

- ◆ FUNDING AND SUPPORTING THE OREGON/CHINA CULTURAL EXCHANGE PROGRAM
- ◆ LIVING AND ACADEMIC EXPENSES FOR CULTURAL EXCHANGE PARTICIPANTS
- ◆ NATURAL MEDICINES PROVIDED ON A SLIDING SCALE ALONG WITH OUR GROWING APOTHECARY
- ◆ NEW EQUIPMENT TO ENSURE OPTIMIZATION OF CARE
